

## Fact Sheet

The Marantec Group at a glance

### Group of Companies

<b>100</b> million Euro turnover p.a.	The turnover of the Marantec Group is approximately 100 million euros per year.
<b>80</b> % equity	The equity ratio is 80 %.
<b>550</b> employees	More than 550 people work at the Marantec Group's worldwide locations.
<b>2.25 million</b> products annually	The companies Marantec Marienfeld and Marantec Legden together sell 2.25 million products per year. 11 % of products are new products.

### Company Transformation

Open Champion	Working together instead of against or side by side: We believe that cooperation with other companies – whether start-ups or established market players – will achieve more for both sides than competition. This is why we work with a variety of partners.
<b>5</b> business areas	Door drives are the core of the Marantec Group. However, we also invest in other important business fields related to door automation. Roughly speaking, our business fields can be divided into the following areas: <ul style="list-style-type: none"><li>• Drive Technology for Commercial Use</li><li>• Drive Technology for Private Use</li><li>• Safety and Sensor Technology</li><li>• Comfort and Operation</li><li>• Service and Maintenance</li></ul>

### Corporate Structure

<b>8</b> production sites	The Marantec Group produces drive technology and smart solutions for gates at 8 locations. The main plants of the group are located in Marienfeld in East Westphalia (headquarters Marantec Marienfeld GmbH & Co. KG, district of Gütersloh) and in Legden in the Münsterland (headquarters MFZ Antriebe GmbH & Co. KG, district of Borken). There are also plants in Königs Wusterhausen (Brandenburg), Miesbach (Bavaria), USA, Great Britain, South Africa, and Hungary. The following companies belong to the Marantec Group:
---------------------------	---

- Marantec Marienfeld (garage door openers and external gate operators)
- Marantec Legden (industrial operators)
- Marantec electronics (electronic components)
- Marantec UK
- Hajtó-Mű (three-phase motors)
- Sigl (gear motors)
- Dortech (electronic products)
- Marantec America (garage door openers)
- Ovitor Helsinki, Finland

**8** sales locations

There are also 8 locations in various countries, including Switzerland, Netherlands, France, Italy, and Poland.

## Company History

Founded in **1989**

While there was a political turnaround on the world stage, Michael Hörmann opened a new chapter in drive technology in Marienfeld, East Westphalia. Michael Hörmann founded Marantec out of a door drive production that had previously belonged to the door manufacturer Hörmann. The company name is an acronym for Marienfelder Antriebstechnik, but over the past 30 years it has become a household name in the industry all over the world.

Experience since **1957**

Even if Marantec is a child of the 80s, the experience of the employees and the company's management goes back much longer. Already since 1957, specialist knowledge has been built up in the door drive production, which belonged to Hörmann at that time.
